Qualities Employers Expect from Graduates:

- **Attitude:** Your attitude determines your altitude. It is the most important factor that determines how far or high you go in your chosen field. Attitude cannot be taught through textbooks. Attitude needs to be learned. Looking at the positive aspects of everything - people, work, ideas, and so on, the glass half full helps one develop a positive attitude.
- **Continuous Learning:** Remember every moment is an opportunity to learn from everyone around you, no matter their title. Pay attention when things go well; pay extra attention when they don't and watch how people react to it. Build relationships with the people who face problems by being their solution. A continuous learning mindset helps one become an all-around professional.
- **Be Open to Change:** Don't get discouraged when a job you really want does not pan out for you. It just opens up doors to other opportunities.
- **Communication Skills:** Incorporate the Top 3 communication skills, i.e., Active Listening, Persuasion, Awareness of Communication Styles.
 - Active listening involves paying close attention to what others are saying, and asking clarifying questions to demonstrate interest and understanding. This facilitates effective communication while simultaneously allowing us to show respect and build relationships with the other person with whom we are communicating.

THINK TANK CELL REPORT

"As knowledge increases, wonder deepens."

Charles Morgan

LATERAL THINKING SESSION

To overcome the natural proclivity of getting 'locked' into patterns and allow one to be creative on demand a session on Lateral Thinking was conducted for the students on 26.02.2021 by Asst.Prof.Medline (PG Dept of Commerce). The session emphasized on how students could expand their creativity by adopting new habits and to rewire and train their brain to think laterally. *Edward de Bono's Six Thinking Hats* decision making technique and a method for group discussions and individual thinking was discussed. Creativity exercise like Role storming and Brain Strain based on lateral thinking was conducted. An activity and quiz was also conducted based on the Six Thinking Hat Technique. 75 students actively participated in all the activities during the session. Students were made to think differently which helped them explore new ideas and thoughts. They were able understand how thinking creatively can add value to life, be self-reliant and more confident.

Dear Sir,,

This has reference to the telephonic discussions about providing our TCS Youth Employability Training Program for the final year SC/ST and Underprivileged students of the esteemed St Annes Degree College For Women, Halasuru,Bangalore.

For your ready reference, I would like to furnish details of our free training - This Social Initiative of Tata Consultancy Services Ltd (TCS) aims to improve the employability of SC/ST and underprivileged students of Arts & Sciences. This is an integral part of our Corporate Social Responsibility (CSR) role from 2010 onwards and we have identified key areas of concern which inhibit otherwise meritorious SC/ST and underprivileged students from getting good jobs in the corporate scenario.

Therefore, we train these graduates in English Communication Skills and Basic Corporate Etiquette which would make them improve in these areas and make them employable. The beneficiaries are able to vastly increase their self-confidence and interview performance ability as a consequence of our training. Our TCS training consists of a **100 hour module** and is targeted towards **final year undergraduate students of Arts and Sciences**

At the conclusion of the training, the needy and deserving students would be significantly better at English

Communication & Etiquette. They will receive a TCS Certificate of Training which will increase their employability in the corporate world. In addition, the trainee shall be guided and encouraged to apply in job market as per suitable vacancies available for freshers across the industries including TCS by going through the standard process, as and when the same gets scheduled.

The students eligible to attend the Recruitment Process after completion of the training would be final year undergraduates from arts and sciences background. Around **40 % of the students in each training batch would be from SC/ST communities. The students from the other communities would be from financially weaker sections with parental income being less than 6 Lakh per annum**

We have been organizing free training for the **past seven years in your esteemed college and a significant number of those trained have gained selection for TCS entry level jobs and are performing well in their blossoming careers.**

Thank you for giving us all the support required for conducting this Youth Employability program in your college which is completely free of cost.

Looking forward to conduct more Training in your esteemed college.

Yours Sincerely,

Sheena Mathew

Best practice I

1. Title of the Practice: *Mother Gnanamma Fund – 'A day A Rupee'*

2. Objectives of the Practice (100 words)

Mother Gnanamma Fund – A day A Rupee scheme was formulated to provide the financial support for the needy and help them to fulfill their basic need for their day to day life. The scheme is 'committed to change lives'. The main objective of the scheme is to help the truly needy people who find difficult to meet with their basic requirements for their life. It has been observed that many people have been affected by impact of COVID 19.

3. The Context (150 words)

The Mother Gnanamma Fund initiative has been conceptualized to provide financial support to poor and needy. The scheme aims to reach various causes of community in order to improve the society. The Mother Gnanamma fund in 2020-21 was utilized for distribution of food and provisions for Chikka Nayakanahalli, C.K.Pura, Nayakanattythanda and Mangalavade village people in Pavagada from 20th December to 24th December 2020. The fund has also been further utilized to construct a new house for Ms.Chandavi & family in Pavagada. The sisters of society of St. Anne has identified this person who is in real basic need of a proper building for them to reside. On 14th January 2020, the society promised the family to construct a new house and the accordingly the same was completed in a short span of time.

4. The Practice (400 words)

The scheme was designed to raise a specific amount of money to meet the cause. The college has taken initiative to impart the value among students to be more philanthropic by introducing "A day a rupee scheme". Every class is provided with a donation box for the students to drop a rupee a day. Student volunteers under the guidance of class teachers collected one rupee from every student on daily basis. Apart from this faculty members, Principal and college management also contribute certain amount towards the fund for each semester. The fund collected will be utilized for the persons who are in need of help.

5. Evidence of Success (200 words)

The scheme has helped several families in their hard times during pandemic. The distribution of provisions aided them to have a proper meal for certain period of time. Apart from that Ms. Chandavi & family in Pavagada were also satisfied and had a safe feel to lead their day to day life in their own residence.

Since it is not possible for every individual to support the needy, this initiative of joining hands together by contributing a very small amount was a great victory. Every benefactor had a pleased feel that even their small contribution has helped to serve for the society.

6. Problems Encountered and Resources required (150 words)

The scheme required only the generous hearts to raise funds and not any physical properties or requirements to attain the objective. There was a problem in identifying the real needy people who is in sought of help. We had to really work to find the beneficiary of the scheme. Another major problem was that due to pandemic it wasn't possible to collect appropriate funds as per the practice and scheme (A day a rupee) from the students.

Title: Community service

Class: II BBA

Semester: II Semester

Total number of students: 17

Community services were undertaken by the students of II BBA as part of their curriculum. These services are undertaken to sensitize students towards services to community and also to enable students to learn about social entrepreneurship. These students undertook community services in various NGOs for a period of three weeks i.e., 21 days. After which a certificate was provided by the concerned NGO on completion of the community service report. 17 students rendered their services in different areas like accounting, maintaining daily records, interacting with the people in the NGOs, etc.

The resource person for the Programme was S Balamurali, Assistant Professor, Department BBA, DG Vaishnav College, Chennai. The main objective of this Training Session was to cater to the faculty members the guidelines and step-by-step module for the preparation of NTA-NET Exam.

UGC-NET stands for the University Grant Commission National Eligibility Test conducted by NTA (National Testing Agency) twice a year to determine the eligibility of post-graduate aspirants about a particular subject for the post of Assistant Professor or JRF (Junior Research Fellowship).

UGC NET Exam Pattern:

UGC NET Exam pattern consists of two objective papers.

- UGC NET Paper-I (General Paper on Teaching and Research Aptitude) is common and mandatory for all aspirants. It is intended to improve the skills relating to Reasoning, General Knowledge, Teaching aptitude, Research aptitude and General mathematical expertise.
- UGC NET paper-II the subject for paper-II needs to be chosen by the aspirant. An aspirant can choose the subject of his/her post-graduation or a related subject. NTA Conducts the UGC NET Exam for a total of 81 subjects.

Suggestions:

The training was very professional and provided a lot of tips to crack UGC NET Exam. Looking forward for more quality sessions like this. Appreciate the efforts. Required to solve more problems in Data Interpretation and sample question paper can be provided for everyone. Could be given on paper 2 also. More similar session can be organised. Little bit of detailed explanation of theoretical and English language. Overall it was a good interactive session. The resource person explained well. Specially short cut methods of solving mathematical problems. Some more mathematical and data interpretation questions to be solved. CSIR topics also to be covered.
