Report on Peer tutoring sessions

Peer tutors help the student to work toward self-responsibility and self-direction. It is a teaching strategy where a group of students interact to help each other's learning by one student occupying the role of tutor and the other the role of tutee. Peer interaction among children is useful in learning new skills, knowledge and solutions to each other's problems by sharing ideas.

As a part of Management Association, Peer Tutoring Programme was introduced during this academic year. The Final year students of BBA conducted sessions on various topics for 1st and 2nd Year BBA students.

ANTI SEXUAL HARRASMENT CELL REPORT 2020-21

Anti Sexual Harrasment Committee members for the academic year 2020-21 were Dr Neha Mantri, Ms.Sangita, Ms.Vasantha, Ms.Sobha and Ms.Arul. Following events were conducted in this academic year:

FINANCIAL FITNESS PROGRAM ON 21/09/20

Anti Sexual Harrasment Cell has conducted investor awareness program for students of III BBA and III BCOM on 21/8/20. This was a 60 minutes online program conducted by a financial expert from Finsafe India Pvt Ltd. The program focused on the need for saving in mutual funds, how to start investing and different investment options. Totally 103 students participated in the seminar.

SURVEY REPORT ON: SHE MATTERS, MY VOICE, MY FUTURE

An online survey was conducted by the Anti- Harassment Cell in the last week of December 2020 where the participants were asked to fill a form containing 25 questions pertaining to the concept of body positivity. The aim of the survey was to understand body positivity and how factors such as sexual harassment, influence of social media, skin tone and others affect one's perception of self- image. The sample size undertaken was 506 between the age group 16-23.

From the findings of the survey, it is observed that the majority of the participant population, that is about 75% of them, do not worry about how they are perceived based on appearance and do not feel insecure about their looks. About 23.3% of the population have agreed on being bullied for their skin tone, at the same time confirming that it does not affect or matter to them. When asked on views about body positivity, the majority population believes that, it is about being comfortable in the way you are, being confident, self- love and just being yourself. 44.2% of them, deny having experienced any psychological distress such as anxiety or eating disorders as an outcome of physical dissatisfaction. Looking upon the factor of sexual harassment, we have observed that 92.7% and 71% of them have not encountered any passive sexual harassment and bad touch respectively. When asked if these uncalled encounters affect their self- confidence, 64.5% of them disagree to it. 69% of the population have denied of ever having been pressurized to fit into the culturally "ideal" look, with 62% agreeing of not judging anyone based on their appearance unintentionally. On understanding

the influence of social media, it was observed that, 63.7% of the population agrees that social media does play an influential role in making perceptions of one's body image, with 54% of them saying it has a neutral role in their lives. On the scale of self-esteem, rating out of 10, majority of the participant population rated 8 the highest on the scale.

From the above mentioned results, we can observe that majority of the population are optimistic about their self and body image irrespective of various concomitant factors such as sexual harassment, skin tone, social media and external pressures to confine to culturally ideal look. Hence, it can be concluded that these attending factors do not influence one's perception of body image.

OUTREACH PROGRAMME ON 4TH March'21 at 3.00pm

"Don't forsake me now when my strength is failing" Psalms: 46:4

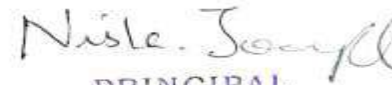

"Now that I am old and my hair is grey, don't leave me, God. I must tell the next generation about your power and greatness. Psalm 71:18-19

Old age is a blessing from the Lord. We should never be afraid of aging. Christians have a responsibility to show kindness, respect, and to take care of the elderly. Yes we have to respect all people, but there is a certain type of respect that we give to the elderly unlike our own age group. There is a certain way we talk to them and give honor to them. When living by the Word of God old age brings wisdom that is able to help and guide the young generation in need.

The AICUF team of St. Anne's Degree College for Women in view of its mission visited the Little sisters of the poor - Home for the Aged #26 Hosur Road, Richmond Town, Bangalore on 4th March'21 at 3.00pm and spent time leisurely with the elderly and aged people. Ms. Marina the AICUF Co-ordinator and Sr. Shiji, Faculty along with the AICUF Council members visited the Home for the aged. AICUF budget was utilized to get refreshments for the Elderly people in the home. Faculty and Students interacted with them, listened to their grievances and gave few suggestions and counseled them to imbibe a positive spirit. The outcome of the event enlightened the young minds of the AICUF team to do more such visits to encourage and motivate the elderly with a strong attitude.

"ROLE AND RESPONSIBILITIES OF THE YOUTH DURING THE PANDEMIC"

Introduction:-

COVID-19 The Coronavirus, a pandemic has made us realize that we all are connected in this entire world is a family. Although connected, medical experts have suggested social distancing as one of the perfect solution to fight against the new evil. Our Honourable Prime Minister Narendra Modi, indicated how COVID-19 chain can be stopped with 21 days country lock down. But to flatten the COVID-19 the lock down must be respected & accepted by 130 crore Indians. Young people in India are capable to take the country out of the shackles of the ongoing health and humanitarian crisis.

As the daily reports suggests the poorest and the most marginalized (Daily wagers, Migrant workers, hawkers, contractual and informal workers, etc.,) are disproportionately impacted since their livelihoods and incomes are lost, with reports of them being confined in undignified conditions of shelters going around. Among the most impacted are the hapless migrants (youth are among the largest among the migrants), who are starved of funds and food and hardly have resources or space to practice social distancing.

The Challenges

State of public health care in India

The Indian Government's expenditure on health as a percentage of GDP hovers around 1.5%. One of the world for around 52% of households in urban areas, and 44% of households in rural areas, the private sector is the main source of health care then are sick according to government data. It is insufficient to take on a pandemic like COVID-19.

Misinformation and Stigma

Stigma has further Aggravated the problem. Misinformation and Stigmatisation has led Many people Running away from the Quarantine centres / Hospital and people are not Coming forward. The Issue of Stigmatisation Stems from fear, prejudice Divisiveness, Sometimes from Racism, and lack of Correct Information.
