

7.1.3 Describe the facilities in the Institution for management of the following types of degradable and non-degradable waste (within 200 words)

Solid waste management
Liquid waste management
Biomedical waste management
E-waste management
Waste recycling system

Response:

Solid waste management

Collection and disposal of waste:

The college takes strict measures to deal with the waste management since it is very important for the protection of environment. Every class room is provided with a bin for collection of dry waste and wet waste is collected separately in a bin placed in each floor and disposed in proper manner. Measures are taken by college to dispose the collected waste to BBMP, everyday a vehicle from BBMP collects the segregated waste from the college campus.

E-waste

The electrical and electronic waste collected from all over the campus is segregated and disposed to the vendor. An MOU is signed with the vendor for this purpose. Majority of the e-waste such as CPU, monitors, batteries, projectors, motherboard, keyboards, and mouse are collected from the computer labs.

Waste Recycling

The college has a right practice of using used sheets to take prints for unofficial information and rough information for checking the content before finalizing.

The college encourages the students constantly to create awareness to help them realize the value of reuse of consumables and habituate for less waste generation
