Mentor Mentee Report

Academic year 2023-2024

Student mentoring in St. Anne's Degree College for Women, mentor mentee is defined as a one-to-one relationship between a student and the mentor that occurs over a prolonged period of time. The mentor provides consistent support, guidance and concrete help to a student to provide them with a positive role model. Some students involved in the mentoring program may be going through a difficult and/or challenging situation, a period of life in which they need extra support, or they may simply need to have another significant adult present in their life.

The goal of student mentoring is to help all students involved in the mentoring program to gain the skills and confidence to be responsible for their own futures and develop to their full academic and personal potential. In St. Anne's Degree College for Women will ensure that all learners receive the care, guidance and support necessary to maintain and extend their personal development and academic progress. A well-established Mentor-Mentee system exists across all departments for overall growth and development of the students

The Mentors have one on one interaction with their mentees and understand the progress in academic growth, sports, cultural activities, regularity, and active participation in co-curricular and extra-curricular activities. The mentor also counsels on the health as well as stress issues pertaining to interpersonal relationships. This cooperative system provides the initial understanding about the student community and subtle divide between academically bright student and the slow learners. The mental wellbeing of all students is ensured through personal counselling and a strong mentoring system

World suicide prevention day

World Suicide Prevention Day (WSPD) is an awareness day always observed on 10 September every year, in order to provide worldwide commitment and action to prevent suicides, with various activities around the world since 2003.

“Creating Hope Through Action”

Suicide is a major public health problem with far-reaching social, emotional and economic consequences. “Creating Hope Through Action” is the triennial theme for the World Suicide Prevention Day from 2021-2023. This theme serves as a powerful call to action and reminder that there is an alternative to suicide and that through our actions we can encourage hope and strengthen prevention. World Suicide Prevention Day (WSPD) was established in 2003 by the International Association for Suicide Prevention in conjunction with the World Health Organization (WHO). The 10 September each year aims to focus attention on the issue, reduces stigma and raises awareness among organizations, governments, and the public, giving a singular message that suicides are preventable.

A seminar on ‘World suicide prevention day’

A seminar was held on the basis of ‘World suicide prevention day’

In creating an awareness on the risk factors and prevention on suicide. This was completely an interactive session where the resource person and students were to interact and know more on the suicide. The students were asked to perform activities based on the ‘World suicide prevention day’.

Risk factors

Suicide is rarely caused by a single circumstance or event. Instead, a range of factors—at the individual, relationship, community, and societal levels—can increase risk. These risk factors are situations or problems that can increase the possibility that a person will attempt suicide.

Individual Risk Factors

- Job/financial problems or loss

Relationship Risk Factors

- Bullying
- Family/loved one's history of suicide
- Loss of relationships
- High conflict or violent relationships
- Social isolation

Community Risk Factors

- Lack of access to healthcare
- Suicide cluster in the community
- Stress of acculturation
- Community violence

Societal Risk Factors

- Stigma associated with help-seeking and mental illness
- Easy access to lethal means of suicide among people at risk

World Mental Health Day

World Mental Health Day 2023 is an opportunity for people and communities to unite behind the theme '**Mental health is a universal human right**' to improve knowledge, raise awareness and drive actions that promote and protect everyone's mental health as a universal human right.

Good mental health is vital to our overall health and well-being. Having a mental health condition should never be a reason to deprive a person of their human rights or to exclude them from decisions about their own health. Yet all over the world, people with mental health conditions continue to experience a wide range of human rights violations. WHO continues to work with its partners to ensure mental health is valued, promoted, and protected, and that urgent action is taken so that everyone can exercise their human rights and access the quality mental health care they need.

WORLD MENTAL HEALTH DAY 2023: THEME

The theme of World Mental Health Day 2023 is 'Mental health is a universal human right.' The purpose of this theme is to improve knowledge, raise awareness, and drive actions that promote and protect everyone's mental health as a universal human right, says WHO

"Mental health...is not a destination but a process. It's about how you drive, not where you're going." - Noam Shpancer

Mental health is a basic human right for all people. Good mental health is vital to our overall health and well-being. Mental health conditions are also affecting an increasing number of adolescents and young people.
