Course	Date	Topic	Venue	Resource person	No of students attended
I BCA	04.10.2021 To 27.10.2021	Soft skill training	Auditorium	Mr Rajan Selvaraj	52

The Soft skill development programme was organized for first year BCA students by Mr Rajan Selvaraj(Rebuen), He explained about the adaption in the present scenario and made everyone in the auditorium to join new entertainment communication to improve our skills. To increase self confidence among the students.

SESSION 1:

In the first day of the session, Mr. Ranjan covered the topics of how to overcome stage fear and how to build a leadership quality. To make the session more interesting he conducted various games like riddles, tricky questions, ice breakers, picturization and problem solving question.

To imbibe the leadership skills the audience were divided into 4 groups, where the students get a chance to interact with different peer team members. Each day a new member will be elected as a leader which helped them to learn the leadership skills.

The trainer focused more on improving the communication skills by conducting the group discussion.

PROGRAM NAME: Data Science using Python

After completing the course, the Students will be able to understand why Python is a useful scripting language for developers and also will gain knowledge in the following

- Understand the difference between Python basic data types
- Know when to use different python collections and implement python functions
- Understand control flow constructs in Python
- Handle errors via exception handling constructs
- Import both structured and unstructured data into Python
- Parse unstructured data into structured formats
- Simulate data through random number generation
- Understand mechanisms for missing data and analytic implications
- Create compelling graphics to reveal analytic results
- Reshape and merge data to prepare for advanced analytics

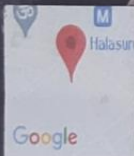

ST. ANNE'S DEGREE COLLEGE FOR WOMEN

- Appreciate the importance of visualization in the data analytics solution
- Apply structured thinking to unstructured problems
- Understand a very broad collection of machine learning algorithms and problems
- Learn algorithmic topics of machine learning and mathematically deep enough to introduce the required theory

ADD ON PROGRAMME SYLLABUS

Program Name: Data Science Using Python

Objective: Get an introduction to Data Science in this Machine learning with Python training Module and see how Data Science helps to analyze large and unstructured data with different tools.

Unit I:

- + Define Data Science
- + Discuss the era of Data Science
- + Illustrate the Life cycle of Data Science
- + List the Tools used in Data Science
- + State role of Big Data and Hadoop, Python, R and Machine Learning play in Data Science

Unit II:

- + Fundamental understanding of the Python programming language.
- + The skills and understanding of Python to apply for Python programming jobs.
- + Python skills to move into specific branches - Machine Learning, Data Science, etc.
- + Understand how to create your own Python programs.
